Following President Macron's speech, as well as the recommendations of the French Federation of Athletics, it is now clear that the 2020 edition of the Ultra-Trail du Haut-Giffre cannot take place between 19 and 21 June.

We are deeply saddened by this, because we wanted to believe it might still be possible with some extra time and we were galvanized by your many messages of support and encouragement ... but, alas, the way the health situation in France is evolving gives us no choice.

Faced with the uncertainty as to when we might see a return to normality and the great number of events looming in the autumn, we can confirm that we are opting for a pure and simple cancellation of the 2020 edition, rather than a postponement to the end of the year.

The KMV du Criou, scheduled for 16th August 2020 is, for the moment, being maintained as planned.

We would like to thank you for the support you have shown us by volunteering. Without you, none of this would have been possible, and we know that you were ready to make this event another success. Preparatory workshops for the 2021 edition will take place in the coming months, and we are counting on your energy to participate 😊.

This situation is forced upon us, but ultimately it is but a minor consequence of this epidemic. Let us, instead, appreciate our loved ones, and look towards the future together, and the preparation of a 2021 event which, we are convinced, will make up for 2020.

Sportivement,
